

**Arizona High-Efficiency Natural Gas
Residential Rebate Program**

 Rebate
Application No.

■ ■ ■ APPLICATION AND OFFICIAL RULES ■ ■ ■

 Visit www.conservationrebates.com to apply for a rebate online and to check your rebate status.

QUALIFICATIONS:

- All qualifying equipment must be installed in an Arizona residential customer home receiving natural gas from Southwest Gas. **Rebates are limited to new equipment only; leased, used or rebuilt equipment is not eligible.**
- Rebates are limited to no more than **two (2)** of each qualifying equipment type per customer per calendar year.
- **Any individual rebate amount shall not exceed purchase price.**
- Offer is valid on qualifying energy efficient equipment purchased between **November 1, 2009 and October 31, 2010**, or until funds are no longer available, or until program is discontinued, whichever comes first. All applications must be post marked by November 15, 2010.
- Qualifying water heaters must be **storage models with an Energy Factor (EF) 0.62 or higher with storage capacity between 29 and 65 gallons.**
- Qualifying programmable thermostats must have **four program periods per day.** Customer must have a natural gas furnace at the installation address to qualify for the programmable thermostat rebate.
- Qualifying smart low-flow showerheads must have **Showerstart Technology and must have a water flow of 1.50 gallons per minute or less.** Customer must have a natural gas water heater at the installation address to qualify for the low-flow showerhead rebate.
- **A copy of your dated sales receipt or invoice must be submitted with this application form.**
- **Sales invoice/receipt must be itemized to show each eligible equipment piece, and must include itemized purchase price, date, brand and model number.**

PLEASE NOTE:

- Southwest Gas has partnered with Electric & Gas Industries Association (EGIA) for the administration of this Program.
- Do not include rebate application with your utility bill.
- For questions regarding rebate status, please contact **EGIA at 866-802-7790**, Monday through Friday 8:30 a.m. to 5:00 p.m.
- For more information, to verify eligibility, or confirm products, visit www.conservationrebates.com or contact **EGIA at 866-802-7790**.
- Customer must fill out and sign the application below or apply online at www.conservationrebates.com.
- **Online Applications: Do not mail in this form.** Please mail a copy of your sales receipt AND your online confirmation page in a DIFFERENT envelope.
- Southwest Gas reserves the right to **verify both the efficiency and installation of equipment prior to issuing rebates.**
- Southwest Gas and EGIA are not responsible for items lost or delayed in the mail, or any rebate delayed due to incomplete or incorrect rebate applications.
- Southwest Gas and EGIA are not responsible for any taxes that may be imposed as a result of your receipt of any rebate from Southwest Gas.
- Offer not valid with other utility rebates for the same end-use product.
- **Installation costs are not eligible for rebates.**

KEEP THIS STUB!

Retain this portion for your records. Return bottom portion with a copy of your sales receipt in the envelope portion of this application.

Please complete the required information below:

 Would you have purchased and installed this high-efficiency equipment if Southwest Gas didn't offer a rebate? Yes No

This program is funded by Southwest Gas Corporation's Arizona customers and administered by Southwest Gas Corporation. This program has been reviewed and approved by the Arizona Corporation Commission. This program may be modified or terminated without prior notice and is provided to qualified customers on a first-come, first-served basis until program funds are no longer available. Eligibility requirements also apply. Southwest Gas Corporation does not make any warranty, express or implied, or assume responsibility for the accuracy, completeness, or usefulness of any information, estimated savings, and benefits attributed to the products that qualify for this program. Reference to any specific product, project, or service by manufacturer, trade name, trademark, or otherwise does not constitute or imply its endorsement, recommendation, or favoring by Southwest Gas Corporation. To qualify, equipment must meet technical requirements and be installed according to local building codes and ordinances and/or manufacturer's requirements.

Getting the most out of your new high-efficiency water heater....

Did you know that water heating is the third largest energy expense in your home? So when you're replacing an existing water heater or buying one for the first time, it's important to know that the higher the efficiency of the water heater, the more you'll save on energy costs. When choosing a water heater, carefully consider the unit's Energy Factor (EF), which is a measure of the overall efficiency of the water heater. The higher the number, the more efficient it is.

Some additional energy saving tips that may help lower your energy usage even more...

- Lower the thermostat on your water heater using the temperature adjustment on the control. A setting of 120° F provides comfortable hot water for most uses. Set the control knob to the lowest setting when you'll be away from home for extended periods of one week or more.
- Buying a water heater blanket may be an inexpensive way to save 4 to 9 percent on your water heating bill. However, before purchasing a blanket, check your manufacturer's instructions. In some cases, installing a water heater blanket may void your warranty.
- Use low-flow showerheads and water-conserving faucets.
- Insulate exposed, uncovered water pipes.
- Keep the screened area at the bottom of your water heater free of lint, dust, and oil, per manufacturer's instructions. For maximum performance, keep the screened area free from obstruction.
